CHRISTIAN SCIENCE CHURCHES "Everlasting Punishment" was the subject of the Lesson-Sermon Sunday, November 3, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts. One section of the Lesson-Sermon contained exhortations of both Moses and Paul, and included these verses from Deuteronomy and Galatians: "Now therefore hearken, O Israel, unto the statutes and unto the judgments, which I teach you, for to do them, that ye may live, and go in and possess the land which the Lord God of your fathers giveth you." "Be not deceived; God is not mocked: for whatsoever a man soweth, that shall he also reap. For he that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting."

Lowered Rate of Edison Co. Now in Effect

Country rate reduction of the Southern California Edison company to 427,000 consumers in Southern and Central California which was announced recently became effective November 1 and brings a lowered minimum service rate to many users in the Torrance, Lomita and Redondo Beach district, according to C. W. Kolner, district manager. In reducing the rates for the electric energy served in this district from 5.5 to 5c per K.W.H., the company also lowered the minimum charge from \$1.25 to \$1.00 per month outside of incorporated city limits in the Los Angeles metropolitan district. In this zone are included portions of the Edison company districts of Alhambra, Compton, Inglewood, Long Beach, Norwalk, Montebello, Pasadena, Redondo Beach, San Fernando Valley, Santa Monica Bay and Vernon.

In the announcement of the state railroad commission outlining the company's proposal for a second general rate reduction since 1927 and seventh voluntary reduction since 1920, it was pointed out that a saving of approximately \$1,400,000 would be effected for 427,000 consumers on the Edison company lines. Increasing business realized by the company is largely responsible for the general rate reduction, which total approximately 365,000 horsepower this year. This total of new business for 1929 is 72,881 H. P., greater than the total of new business contracted for last year and largely represents the increased use of electric energy on existing lines rather than new business in new territories.

The company this year has added approximately 60,000 H. P. of generating capacity in its Long Beach steam plant. Mr. and Mrs. J. H. Foss attended the funeral of their uncle, Mr. William Shugr of El Monte on Tuesday. Mr. Shugr passed away on Sunday.

Those boys who won so much money on the U.S.C. vs. Stanford game are back to pre-football season standards now. What money they had won up to date, they lost last Saturday afternoon. How had Charles Strong must feel, losing by betting against U. S. C. two weeks ago and losing again last Saturday by betting on them. That is just what happened to a lot of bigger men in Wall street the last week, so he need not feel lonesome.

White Hope, Lomita, sometimes known as Harold, went after another record Monday morning. He drove his big Vells all the way from San Bernardino to Torrance, through the Santa Ana Canyon, in one hour and fifteen minutes. Bud said, I know Harold was a little late getting to work and came into the office all out of breath—he must have been helping the Vells.

William T. Thomas has been profiting by every minute his wife was away on a visit to San Francisco. Bill wanted a good radio for a long time, but the Mrs. was not so crazy about them. So Bill has tried out a different make of radio each evening and has finally made his choice. He now has the best Majestic made, installed and going full blast in his home.

The building boom has struck the test room and Ed Lacey is now ensconced behind a beautiful glass wall. Shop Supt. Edward O. Strahl seems to be back on the job to stay after several rounds with the flu, stiff neck and several similar ailments. The first morning back he claimed his condition to be about 50-60, indicating that when he felt right he was some real man, about 100%. I am on vacation myself so feel that I can get away with this.

French Recipes Will Banish Monotony From American Diet By CHARLES SCOTTO, Chef, Ambassador Hotel, Park Avenue, New York City.

BRILLAT-SAVARIN, one of the world's most famous epicures, once said that the discovery of a new dish is more beneficial to humanity than a new star. The majority of American housewives, packed with the necessity of planning three meals a day for 365 days throughout the year, would almost certainly agree with him.

While entirely new dishes are rare indeed, it is still possible for any woman to find among the recipes of foreign lands a variety of dishes that will be new to her and her family. A study of French recipes, alone, will provide her with ample means of escaping the deadly accusation of monotony which, with more or less justice, has been leveled at the American menu. French methods of seasoning, including the use of a little sugar to enhance the flavors of vegetables, will enable her to arouse envy in the hearts of less knowing cooks.

NEWS AND NONSENSE IN THE P. E. SHOPS

Edited by Carleton B. Bell

If Arren Miller had three Ford's of the same vintage as the one she now drives—sometimes, she would just about be able to have one of the three ready to go when she was. As it is now she has to get Dad to follow her in the family car to tow the Ford to start it when the starter falls and to take her to her destination when it falls to start even with Dads help. It is not an uncommon sight at all to see Arren's Ford "spending" the night in front of the office or in the street a block or so from home. Her husband says he could not get it to go one bit nearer the family garage.

Nurse Cummins is enjoying his first vacation since being appointed as shop nurse. Miss Hoak, formerly employed in Dr. Weber's office, is taking his place. Mary Baldrick got herself some job by being so sure U.S.C. would win that football game last Saturday. She bet on U.S.C. and consequently has to bake a cake for George Gilka, according to his ideas of size and fitness. George tells me that he has a big new wash tub for Mary to bake that cake in and that it will be big enough for everyone in the shop to have a piece of. Mary will surely have to sell some glad bulbs to pay for that cake.

Everywhere I go looking for news I hear report of that star party. Must have been SOME party. I did not run onto anybody that was actually there but almost every man in the shops knew somebody else who was there and could tell something good on him. I have failed to figure it all out for myself as yet.

With the Allurement of the French Cottage

By R. C. HUNTER & BRO., Architects, New York. It cannot be denied that there is a certain definite allurement and charm to the French cottage that is found in no other domestic architecture and it is allurement and charm that constitute the chief value of a home as viewed from the outside, and from the inside as well.
